

List of users for mobile use

Shows a list of users connected to the node reporting:

If the user is registered with an **R** Type of USER which can be either **EXT** or **LOCL** And the duration of the session.

This command has been created to be used from a mobile app. It is possible to use it from a terminal or from console.

It may be necessary to install the Date:Manip module.

```
# Debian or similar
apt install libdate-manip-perl
```

or

```
# Alternative
cpanm install Date:Manip
```

The script is called **muser.pl**

Using the sysop user, it has to be copied to:

```
/spider/local_cmd
```

To run it use

```
muser
```

or

```
mu
```

The output would look something like this example:

List of connected Users:

Callsign	R	P	Type	Connection Time		
CT7AGM-1			USER EXT	0 d	0 h	11 m
EA1FU-1	R	P	USER EXT	0 d	1 h	9 m
EA3CV	R	P	USER LOCL	0 d	4 h	42 m
EA3GOP			USER EXT	0 d	6 h	56 m
EA4HPI			USER EXT	0 d	0 h	8 m
EA5GST			USER EXT	1 d	2 h	0 m
EA5JN	R	P	USER EXT	0 d	3 h	27 m
EA8DLF			USER EXT	0 d	0 h	30 m
EC3ALS			USER EXT	8 d	0 h	1 m
F6DAY			USER EXT	0 d	2 h	55 m
SK0MMR			USER RBN	2 d	8 h	38 m
SK1MMR			USER RBN	6 d	12 h	42 m

Users: 10
